DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-45 and 91-101, drawn to a method of playing a game, classified in class 463, subclass 16.
- II. Claims 46-55, drawn to a method of generating a game, classified in class 345, subclass 654.
- III. Claims 56-90, drawn to an apparatus for rendering 3-D images, classified in class 463, subclass 32.
- IV. Claims 102-120, drawn to rendering 3-D and 2-D windows, classified in class 345, subclass 665.
- V. Claims 121-127, drawn to an apparatus for a 3-D user interface, classified in class 345, subclass 782.

The inventions are distinct, each from the other because of the following reasons:

Inventions I-V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a method of playing a game which can be applied to a variety of video games having 2-D and 3-D images. Invention II has separate utility such as a method of generating a game that can be applied to variety of video generated games. Invention III has separate utility such as an apparatus for rendering 3-D

Art Unit: 3713

images, where such apparatus has applicability in game other than games of chance. Invention IV has separate utility such as rendering multiple windows in a 3-D environment, which can apply to any environment using 3-D. Invention V has separate utility such as an apparatus for providing an 3-D user interface for collecting user input, where the input mechanism can be applied in general user interface applications using 3-D. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
